

PTY-30

STRAINERS

GENERAL FEATURES

AYVAZ Y Type Strainers have a wide range of applications to filter foreign materials in pipelines. The Ayvaz PTY-30 extends the other equipment's lifetime and helps their operations.

Applications

Steam, water, compressed air, gas, oil, chemical fluids.

Body and Cover	: Ductile Iron
Filter	: AISI 304 Stainless Steel
Gasket	: Graphite
Connection	: Flanged
Max. Working Temp.	: 200 °C
Max. Working Pressure	: 16 bar

PTY-30 STRAINERS

INSTALLATION

It should install as seen above in cold water, hot water and similar fluids.

The direction of the strainer on the steam lines should be horizontal as shown. If it is placed vertically, because of the condensation there will be condensate and that causes water hammer.
